### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Melvin Kraus on 02/06/07.

The application has been amended as follows:

Claim 1, line 16, [side of the abutment surface of the fence] has been replaced for --front side of the saw--.

Claim 13, line 20, [side of the abutment surface of the fence.] has been replaced for --front side of the saw; and--. Also, in line 21, -- a light projecting device for projecting light so as to form a projected line on the workpiece and the mirror having a reflective surface positioned so that the projected light from the light projecting device does not directly impinge thereon.-- has been added.

Claim 17 has been cancelled.

2. The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art fails to teach a mirror for reflecting the projected line which is projected on the side of the

workpiece which is in abutting contact with the abutment surface of a fence and for allowing a reflected line image of the projected line on the abutting contact side of the workpiece to be observed from front side of the saw as set forth in claim 1. Also, the prior art fails to teach a mirror for reflecting the rear end of the slit and for enabling a reflected image of the rear end of the slit to be observed from a front side of the saw as set forth in claim 13.

Aziz et al. teaches the mirror 18 in confrontation with the side workpiece and reflecting projected line 16 from a light projecting device 14 to be projected on the workpiece, but the mirror is not capable of allowing a reflected line image of the projected line on the abutting contact side of the workpiece to be observed from front side of the saw and reflecting the rear end of the slit and for enabling a reflected image of the rear end of the slit to be observed from a front side of the saw.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Omar Flores-Sánchez whose telephone number is 571-272-4507. The examiner can normally be reached on 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer Ashley can be reached on 571-272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
